FOR HALF A CENTURY.

Brother and Sister Parted for Fifty-two Years.

REUNITED ON ELLIS ISLAND.

An Old Woman Bent and Gray Meets Her Brother.

The Meeting Between the Two of a Most Affecting Character.

Associated Press Dispatches.

New York, May 27.—A happy meeting of long-separated members of the same family occurred on Ellis Island Sunday. Fifty-two years ago J. A. Blumberg, then a youth, came to America in one of the old packet ships. The voyage took a long time and the boy was nearly dead from sickness when he arrived. It left his parents and a sister in Russia. Friends cared for him and he recovered. Later on he went to work as a messenger boy in a large business house. Some time after his parents died, but he kept on corresponding with his sister, Maria, for years. Then she married and the boy lost track of her. He prospered and is now engaged in the dry goods business on Worth street, this city.

Yesterday an old woman, bent and gray named Mrs. Levin, was taken to Ellis Island from the steamship Scandinavia, in which she had arrived from Hamburg. Her daughter and son-in-law accompanied her. When she stood before the desk of the registry clerk she was asked if she had any relatives in this country. The old woman looked thoughtful a moment, and then she remembered the little brother who had left his parental roof so long ago. The immigration officials became interested in the case, and soon hunted up Mr. Blumberg. He went over to the island joyfully. The meeting between the two was very affecting. Mr. Blumberg had the party at once taken to his residence, where they will rest for a few days, and then leave for St. Joseph, Mo., where his sister has a married daughter living.

AGAIN IN TROUBLE.

A Columbus, Ohio, Newspaper Man Charged With Blackmail.

COLUMBUS, O., May 27.—Editor Levering of the Sunday World, one of the principals in the Elliott-Levering tragedy of a year ago, when two men, Osborne and Hazen, were killed on the street here, and for which the Elliotts are now doing time in the Ohio penitentiary, is again in trouble, being arrested late last night for blackmail. About one month ago, Levering made a man, H. W. Tiersan, business manager of the World, and it has been said that a blackmailing sheet signed by Tiersan is the fellow who started the report about Senator Sherman having given Representative Dougherty \$3,500 to trade for him for United States senator, and caused the long and useless investigation. About one week ago Tiersan addressed letters to all the prominent sporting men of the city, saying that he contemplated waging war against gambling through the columns of the World, but intimating that he could be "fixed." Superintendent Murphy of the police force, had his attention called to these letters, and he wrote a "put up a job" on Tiersan. Arthur Duffy kept a hotel sporting house on West State street, and made arrangements to have Tiersan call on him at 11 o'clock last night at his spring rooms, and two detectives were detailed to catch Tiersan if possible. Concealed behind the door were the detectives and five witnesses. Tiersan said as soon as he walked into the room that the Law and Order League had offered him \$3,800 to make war on gamblers, but that for \$800 he would refuse, as the World was not opposed to gambling. Duffy made a bluff in pretending to accept, and gave Tiersan a check for \$700 and a marked \$100 bill. A soon as he accepted the money, Detective Bergin came from behind the door and made Tiersan a prisoner. Levering was arrested at the printing office. Neither side will resist. Their bail was fixed at \$300, which they have been unable to get as yet, and both men are locked up in the city prison. What Levering contended in the Elliotts he has now been guilty of himself.

MADE HIS ESCAPE.

A Notorious American Criminal Escapes From the French Police.

LONDON, May 27.—Thomas O'Brien, the notorious American criminal who was captured today by the French police at Havre, succeeded in making his escape from the Havre police and is again at large. The police are now conducting an active search for him and they believe that he must have gone on board a steamer or other vessel just starting for a port along the coast or for Great Britain. The French police think that he will try to make his way to Bordeaux and thence to South America. The police in London and other ports are keeping a careful watch for the fugitive.

The police at Gravesend, Dover and Brighton are on the alert for O'Brien, who is expected to land on the English coast within the next twenty-four hours. The American legation has made special efforts to secure his capture and it is safe to say that O'Brien cannot land anywhere on the southern coast of England or any considerable port in the United Kingdom without being arrested immediately. Late this evening Inspector Roberts of Gravesend, and Sergeant Nowland of Scotland Yard, went out on a special steam launch, and stopped and boarded the Messageries steamer, the Ebre, on which it was thought O'Brien had fled from France. They went through every part of the steamer from stem to stern but found no trace of the fugitive. A description of O'Brien has been sent to every coast town in England.

THE NEWS FROM TUCSON

Sprinkling of the Streets Necessary for Comfort.

A BIG HORSE RACE BILLED.

Several Other Races Set for the Fourth of July.

The Rush for Gila Bend Sets in—Personal and News Notes From Tucson.

Special to THE REPUBLICAN.

TUCSON, Ariz., May 26.—Phoenicians will be interested to learn that the most high and mighty, His Royal Highness, Grand Duke of the Colorado, heir presumptive to the famous House of Peralta, Yelept Reavis, aspirant for the Ducal Palace of Yuma, passed through Arizona a few days since in a tourist car, dressed in the guise of an emigrant, hair and mustache dyed, and the Dundrearies shaved off those fascinating, captivating Dundrearies. Since the exposure of the Peralta fraud, it has been a favorite pastime of the mighty duke to pass through Arizona incognito. I would recommend that he go and join the latter day saints.

Captain Burgess is progressing as favorably as could be expected. An example ought to be made of his assailant. The idea that he cannot dispense with the services of another man without being shot, is rather preposterous, to say the least, and the sooner this idea is knocked into a cocked hat the better it will be. The effect of such an outrageous assault cannot but prove depressing on foreign capital, invested about to be invested in our midst, and as a community we cannot afford to allow such outrages in our midst.

A matter that should receive prompt attention is the terrible condition of the horses on two and four local carriages driven by Mexicans. The animals are almost starved and as they struggle around the streets the exhibition is truly pitiable. Tucson is the only city in Arizona where such a sight can be seen or would be tolerated, and it is a sorry spectacle for new comers or visitors to contemplate. Take the matter in hand and stop the outrage.

Everything is on the tip of expectation over the great horse race Sunday, between Prince, the Wilcox horse, and Spot, the Tucson runner. Betting will be considerable in favor of Wilcox, as the race is too short for Spot. Besides this the Wilcox horse has a professional rider, who, in a 300 yard race, is almost equivalent to winning. Still we have hopes that the Wilcox sports will realize we are in it at the end of the 300 yards. The horses are to be started from the band, another advantage for Wilcox. Articles for any other horse race on the Fourth of July have been signed by Messrs. Yoyle and Cumpher. The race will be a running match, distance, one-half mile, for good stakes. Other races are rumored for the Fourth.

The new fountain is being erected, convenient to the carriage, and hay wagon stand, in front of the Roman Catholic church. This thing improvement will do much for the physical comfort of man and beast and is a good thing. The Corner of Stone avenue and Congress street would seem as more directly in the line of travel, still its present location is not bad.

Our local sporting fraternity are looking forward to the appearance of Corbett at the opera house tomorrow night. We have men who could easily do Corbett up, but these gentlemen generously refrain from incapacitating Corbett before he has a chance to meet Sullivan.

We have had a glorious rain today (accompanied by thunder) which will help to freshen things up. The country has been dry for a long time and presents a parched up appearance.

We waited long and patiently for the city council to sprinkle the streets, but had to fall back on the rain finally. I can assure our city fathers they could do no more popular thing than to thoroughly sprinkle our streets. The dust we inhale and swallow is dirty and full of the germs of disease. The health of the community ought to be considered.

The Gila Bend fever has caught on to Tucson and our people are going to take hold, and be in on the future city of Arizona. Gila Bend waited long, and suffered innumerable disappointments, but she will be on top soon, and she is to be congratulated on the permanency of her boom when it sets in.

Our editors are all in California attending the press meeting, and judging from the pictures published in the San Francisco papers, they have deteriorated a good deal since we saw them last. High living has probably done it. We never could stand prosperity.

It has been so long since we have had a washout on Col. Noble's division, that our memories are getting rusty. But the season approaches when we have got "to look a leetle out."

Several hundred thousands of brick are in the course of construction in the valley. The adobe is doomed, and brick buildings are the present rage. Ere long we will have this new and progressive state of affairs throughout the city. May it live long and prosper.

Mr. Grossetta's fruit orchard is in fine feather. He has about 3,000 magnificent trees and will have much fruit this year. The enterprise of Mr. Grossetta has shown what our lands will accomplish. His grape vines numbering many thousands are also looking fine. He ought to reap a rich harvest for his courageous undertaking.

ENTRE NOUS.

DESERVED HIS BRIDE.

A Guest of the Harlem Hotel Goes for a Drink and Has Not Yet Gotten Back.

NEW YORK, May 27.—The Harlem hotel is situated at 2103 Third avenue and it was almost the scene of a tragedy last night. A couple registering as James McDonald and wife, Meriden, Conn., understood to be on a bridal tour, blew out the gas after retiring to their room. The clerk discovered their mistake about 10 o'clock and gave an alarm, sending at the same time for a doctor. The doctor came and succeeded in resuscitating both the young people, after working with them all night.

The first thing McDonald called for after recovering was a drink, and he shortly afterward left the hotel, ostensibly to get it. Up to 9 o'clock tonight he had not returned and it is believed he has deserted the woman, who is very young and not at all worldly wise.

CAME BACK FOR HER BABY.

A Woman Who Deserted Her Little One Driven to Her Duty by Remorse.

KANSAS CITY, May 27.—A woman who said her name was Kate McCormick went to the city hospital Saturday and declared that she was the mother of the child deserted at the Union depot a few days ago. She said she lived at McComb, Mo., but having had a quarrel with her husband she had left home and came here. She was down-hearted and discouraged and gave the child to two women who looked happy. Then she went to St. Joseph, but was haunted with the thought of what she had done and came back to claim the baby. The child was given to her and both are now in the woman's ward of the city hospital, where they will remain until the humane officers can make further arrangements about them.

A NOMINAL TRANSFER.

The Captive Cattlemen to be Considered as Delivered Over.

CHEYENNE, Wyo., May 27.—The stockmen at Fort Russell are in better spirits today than at any time since their return from Johnson county. A conference has been held by the governor, the judge into whose district the raid was made, and all the attorneys, and it has been decided that, while the prisoners will remain at Fort Russell, they will be in the custody of the Johnson county officers. An application for a change of venue will be lodged, and the preliminary of trial will be open in a few days. That the venue will be treated at Cheyenne seems certain.

WANT THE MILITIA.

ARMED IDAHO MINERS STOP A TRAIN.

The Governor Sends to Harrison for Aid—If Non-Union Men Attempt to Work Blood Will be Shed.

Associated Press Dispatches.

BOISE CITY, Idaho, May 27.—Governor Wiley has wired President Harrison asking for necessary aid to prevent the anticipated trouble from the striking miners here.

Yesterday he received a telegram from Manager Dickinson of the Northern Pacific that a mob of 500 armed and unarmed strikers had stopped the passenger train at Mullen, Idaho, refusing to let it pass.

He ordered the adjutant general of the state militia to hold himself in readiness to move. Marshal Pinkham starts today. Word has been received from Ulen to the effect that the miners will not allow non-union men to go to the mines. If they attempt it blood shed will follow.

RETURNED TO HER FIRST LOVE.

A Strange Story of Marriage and Divorce From Oklahoma.

GUTHRIE, Ok., May 27.—Last week Mrs. A. B. Jackson, who was married to J. B. Jackson of Leavenworth, Kan. Twelve years ago last December Jackson was sent to prison from Greenwood county, Kan. for manslaughter. His wife secured a divorce and married Blackburn. Some time ago Blackburn, who is a steady but poor man, left his wife and went to the opening of the Cheyenne and Arapahoe country. Mrs. Blackburn sued her absent lord for a divorce on the grounds of abandonment and non-support. The decree was granted the day before Jackson, whom she had notified, put in an appearance. Mrs. Blackburn the next day married Jackson.

Blackburn returned home and found his wife divorced and married to another. Not being a wrathful man he talked matters over and it was developed that Blackburn in an early day had gone west, changed his name and was the long lost brother of Jackson. The trio are now living happily together under one roof.

COUNSEL FOR CATHOLICS.

Immigrants in This Country Given Advice by Cardinal Ledochowski.

ROME, May 27.—Cardinal Ledochowski, prefect of the congregation of the propagation of the faith, has written an open letter to the Catholics of the United States in which he says that the letter sent by Cardinal Rampolla to Cardinal Gibbons does not appear to have wholly extinguished the Chabens movement which has for its object the appointment of bishops of the same nationality as the people over whom the ministry of Rival National factions, he adds, seek by every means to advance their own favorites whenever a bishop's see is vacant. The Vatican, he further says, is immovably resolved to adhere strictly to the rules of the Baltimore conference, and also in front of the ministry of the interior of the Palais de Bourbon. The object of the demonstration is to secure the release of M. Pons, the editor of the Anarchist paper "Pere Peinard," who was arrested last month and whose paper was suppressed. The police raided the houses of many Anarchists yesterday, searching for dynamite.

DEMOCRATS IN POWER.

JACKSONVILLE, Fla., May 27.—By a peculiar blunder the government of this city has passed into the hands of the Democrats. A Republican alderman has moved away and there had to be one elected to fill the vacancy. The council stood five Democrats to seven Republicans with a Democratic mayor. When the Republicans nominated their man they forgot to certify to the same as required by law and as a consequence they had no candidate in the field and the election went by default.

A NEW FLOURING MILL

Is in Course of Erection in the City of Phoenix.

WILL BE READY TO GRIND SOON.

J. J. Gardiner is the Enterprising Man Who is Building.

Relief for the Grain-Growing Farmer—Second Mill for Phoenix—The Best in Arizona.

J. J. Gardiner has begun the erection of a flouring mill in this city on the site of the planing mill which now stands in that locality.

The mill proposed will be fifty feet square and three stories high, and when completed will be the finest in the territory.

The south wall is already up and the work will be pushed rapidly until the building is completed.

The material used in the construction is brick, and the mill, when completed, will stand without a peer in the south-west.

There has long been a desire among the farmers to have a permanent and reliable market for their grain, and the erection of this mill is a step toward that guarantee.

The farmers have justly been re-inforced about raising wheat as the milling capacity is limited and freights are intolerable but with the erection of this new mill the grinding capacity will be more than doubled while a competition will have been established for the sale of grain.

There will also be two warehouses on either side of the mill for the storage of grain. The machine shop already built on the west side will answer for one while the two-story brick will help to form the walls of the new building and the other warehouse will be placed on the east side of the mill.

This venture is in the right direction, and while it may not be remunerative with the present crop will give confidence to the farmer who sows in the coming autumn.

NATAL FESTIVITIES.

The Little Children are Given a Holiday—Children Turned Loose.

The little boys and sweet faced girls of Mrs. Barry's kindergarten were given a holiday yesterday, to be spent in childish games under the supervision of their competent instructress, at the grove near Phoenix park.

A street car was chartered for the occasion and promptly at 10 a. m. twenty-five children, the flowers of almost as many happy homes, were taken to the shady grove to spend the day in festivities.

The occasion was the birthday of their highly respected teacher, Mrs. Barry, who has for the past two seasons conducted a kindergarten on Pima street.

The pleasant weather assisted by the prolific shade of the surrounding groves and parks, makes these little parties highly enjoyable and the children so highly favored with picnicking privileges, get a great deal of enjoyment out of life at the expense of solid dresses and dilapidated bonnets which are easily replaced by their indulgent parents.

On this occasion many of the parents went to the initial point to see the little lads and lassies safely on the car and properly provided with the indispensable basket of goodies for the occasion and on the way again in the evening to bring the happy spirits, but wrecked little pleasure seekers to their homes.

LOCAL BREVITIES.

Quite a number of cattlemen from Tonto Basin are in the city.

The brick work on the Sisters' school building will be completed today.

J. S. Deats has his new brick cottage in the Churchill addition nearly completed.

Three carloads of honey were shipped from this city on Thursday. It went to Chicago.

The district court is taking a rest till next Tuesday, when it will again begin its ceaseless roll.

The pleasant May weather continues and the thermometer ranges at an altitude to suit everyone.

Street improvements continue daily and the sidewalks are now comparatively clear on Washington street.

Monday is Decoration Day and the boys of Company B are making extensive preparations for that event.

Phoenix is talking of a mid-week Sabbath. These are progressive times.

The cornice is being put on the Sisters' school and the roof will be begun immediately. Work is progressing finely and the building will be ready for occupancy by the middle of July.

ACTIVE MINING.

Improved Machinery Which Turns Out Bullion in Paying Quantities.

A. T. Marsh, of Minnehaha Flat, has just completed a test on his mine there which was made by a temporary mill of his own construction.

The test has been satisfactory and a mill will be erected soon. The ledge is about twenty-five feet wide, carrying gold all the way across, the character of the ore being much the same as that in the Yarnell mine. Plenty of water and wood are on the ground and the ore can be worked at a very slight cost.

The exact value of the ore was not learned, but it is of a grade that will pay handsomely to work under the advantages that present themselves. This mine is in the same mining district with the Crowned King, Ora Bella, Tiger, Del Paso and Boaz, all of which are well known as good bullion producers.

THE PIANO CONTEST.

ONLY A MONTH MORE IN WHICH TO VOTE.

Great Interest Manifested in the Final Result—Rules to be Observed in Voting.

Only a month more remains until THE REPUBLICAN piano contest will be decided. The various candidates are doing a good deal of work and their friends are helping them, but the bulk of the work is yet to be done. That there may be no possible misunderstanding, THE REPUBLICAN prints the following rules for the information of those interested:

1. Anyone is entitled to a vote as often as they can buy a copy of THE DAILY REPUBLICAN containing the official ballot.

2. Cut the ballot out, write in the name of your choice and the place of her residence and send to voting editor, DAILY REPUBLICAN.

3. Vote for the same lady as often as you choose.

4. Only one lady can be voted for on one ballot. If a ballot contains the names of more than one lady it will not be counted.

5. Every copy of THE DAILY REPUBLICAN until July 3 will contain the ballot. See that every ballot is voted for your favorite.

6. This contest is not confined to Phoenix, but is open to every town in Arizona.

7. The lady receiving the largest number of votes will be given the elegant Mason & Hamlin \$800 piano.

8. Ballots must be sent within ten days after they appear in THE DAILY REPUBLICAN. Ballots will not be counted after that time.

PERSONAL NOTES.

J. B. Mullen was down from Tempe yesterday.

Harry Cole returned to Frog Tanks yesterday.

R. D. Cole, who has been down from Tip Top the past week, returned yesterday.

Mayor Campbell is again able to be about the streets and attend to official duties.

John Regan leaves this morning for Prescott to spend the summer in that conducive climate.

B. M. Mills of Kansas City, will arrive soon and will take a chair in Shumaker's barber shop.

George Kirkland, who had his arm broken recently, is rapidly recovering and will soon be well again.

Mrs. Dr. C. Anderson, recently of Los Angeles, has located in Phoenix. She comes well recommended.

Mrs. Frank Holder and daughter, Myrtle, of Maricopa, and Mrs. Hill, of Tempe, were in the city yesterday.

Fred Herrett has accepted a position with Irvine Co., and will hereafter handle the White sewing machine for them.

W. D. Fulwiler, secretary of the Arizona Improvement company, returned yesterday from Illinois where he has been the past few weeks.

Governor Murphy will take the oath of office as soon as the secretary is ready to qualify. It is necessary first for his resignation before a secretary can be appointed.

Pierce, the man from Tempe, engaged in the shooting affray last winter in this city, is again in a critical condition, his leg being badly swollen. Dr. Mahoney was summoned yesterday to treat him.

Joseph Thalheimer, the enterprising proprietor of the Central hotel of this city, has established a business at Tempe. Mr. Thalheimer, a true representative of the ambitious and frugal German people, will not be outdone in anything he undertakes, but has onward for his motto.

A TREASURY TYPewriter Attempts Suicide.

NEW YORK, May 27.—Kate R. Pike, the treasury department typewriter of Washington, D. C., who was found unconscious in her room at the Astor house Saturday afternoon with the gas turned on and two cuts in her wrist, was taken from Bellevue hospital to the Tombs police court today and arraigned on the charge of attempting suicide, but was released as having been demented when she made attempts on her life. The basis of this conclusion is a letter to her mother written before she cut her wrist.

A COMPROMISE EFFECTED.

MUSKOGEE, I. T., May 27.—A telegram received here says that a compromise is about effected between the Cherokee delegation and Cherokee claimants by which the latter are to be paid \$250,000 for their improvements and strip given 160 acres of land in the strip. This will settle the intruder question.

INTERMOUNTAIN ROAD.

Encouraging News From Both Ends of the Proposed Road.

VALUABLE CONCESSIONS IN MEX.

The North End to Begin Work at an Early Day.

The Immense Forests of Northern Arizona to be Tapped—A Scenic Route.

"There's another Richmond in the field," says the Salt Lake Tribune, in speaking of the proposed intermountain railroad, mention of which was made in THE REPUBLICAN last week. The article continues: "Samuel Bamberger has returned from the east with money to build the Deep Creek road, so he tells his friends. He won't talk to newspaper men about the matter at all; he doesn't seek notoriety, doesn't want to create any furor, but he proposes to just go right ahead and build the road."

Railroads are great developers of new countries and the more we have, the sooner our latent wealth will be brought to light and men who are now comparatively poor be made wealthy citizens. Of all the railroad projects now talked of in Arizona, with probably the exception of the Santa Fe extension, the Intermountain Southern is perhaps the most feasible and would be of most value to the citizens of the territory. There are no serious difficulties to be overcome, and when once actual work is begun dirt will doubtless continue to fly until its completion.

The immense forests of the northern part of the territory would alone yield a large revenue for a railroad, and this is only one of the sources of income to the road, it will open up these forests and place the desert land within arm's length of vast quantities of valuable timber.

The road would also possess striking features as a scenic route. Passing through the Grand Canyon and along the banks of the Colorado river, through southern Utah, are scenes the grandeur of which was never surpassed even by the famous Denver & Rio Grande, or Colorado Midland. The Mormon temple at Salt Lake is alone worth traveling hundreds of miles to look upon. Built of solid white, polished marble, with terraced lawn surrounding it, no more beautiful building is found in the United States.

Good news also comes from the lower end of the road. It is learned that the Mexican government has made many valuable concessions to the company and that all encouragement possible will be given its projects.

The outcome of these concessions and the preliminary work will be looked for with much interest by the citizens of Arizona.

ACTIVE WORK.

Four New Lixiviating Tanks for the Union Mine.

The Salt River Valley Gold Mining company have decided to commence operations on their property, the Union mine. Four large tanks were sent out Thursday to be used in the cyanide process of extraction. President J. C. Rankin left yesterday with a force of men to put up the tanks and fit up the ten-stamp mill. As soon as possible the tailings at the mill will be run through.

They are said to be rich in gold, but were so base, being of a sulphuretted character, that the gold was not saved by the amalgamating process.

The wood contract has been let, and as soon as needed a sufficient force of miners will be put to work and the mine will be run at its best.

The starting of this plant means much for Phoenix, and the success of the cyanide process will be practically demonstrated to the people of this city and surrounding country.

The mine has long been known to be rich in gold, but until the introduction of this process no way could be found that would save it. The shaft is sunk 400 feet deep and plenty of ore is in sight.

YESTERDAY WITH THE RECORDER.

Resume of the Business Transacted by That County Official.

C. B. Ming and wife to Preston McKinney, lots 4 and 5, blk. 7, N.ear's addition, Phoenix, consideration, \$750. Jas. Walker and wife to J. Frank and Irvine Earl, lot 3 and e. 1/2, lot 4, blk. 27, N.ear's addition, Phoenix. Consideration, \$250.

In Justice Harnoy's Court.

Villanan was arraigned yesterday for selling liquor to the Indians, but was acquitted. He was held, however, to await the action of the next grand jury.

Willie Moore and Garfield Rogers were arraigned yesterday for shooting an Indian in the neck with a little gun. The case will be tried today.

A Flourishing Order.

The Knights of Pythias elected officers at their regular meeting last night. The following are those elected: Frank Coyle, C. C.; J. B. Pears, V. C.; F. A. Phillips, prelate; H. Hooker, master-at-large.

The order is in a flourishing condition and the membership increasing rapidly.

A LADY SPECIALIST.

Mrs. Dr. Anderson, of Los Angeles, located for a short time in Phoenix.

Mrs. Dr. C. Anderson, of Los Angeles, California, has located in Phoenix for a short time and will devote her time to relieving the sufferings of humanity. Mrs. Dr. Anderson successfully treats rheumatism, paralysis, nervousness, lumbago, gout, stiff joints, liver and kidney troubles and various other ills that flesh is heir to. She will only remain in the city for a short time and those desiring to consult a specialist of her class should call at once. Electrical and massage treatments a specialty. Office in southeast corner of Pioneer hotel, Washington and Papago streets, Phoenix.

Just received a carload of nice new potatoes cheap to the trade by McNulty & Chapman Bros.
